Registration Form for Twigs and Blossoms Parenting Program!

This program is designed for parents/caregivers, and their young children (infants-toddlers). Parents/caregivers with their child can attend a scheduled one morning a week session for 10 weeks to acquire and practice parenting skills that will foster their child's cognitive, language, physical, social, emotional and emotional development. Each session is co-facilitated by Jillian E. Goodrich, and Jennifer Beary. Jillian is a School Psychologist, and Jen is a special educator. Both Jillian and Jen work part-time with young children through teens as social coaches, and consultants at the Peter Pan Center while raising young children of their own. Sessions will provide parents/caregivers with the opportunity to share resources and ideas to gain support and guidance. Additional developmental specialists or guest speakers may be invited to share their knowledge, experience and expertise with program participants. Weekly morning sessions are thematic-based and encompass developmental stages in social, emotional, and behavioral growth. Play sessions are NOT designed with a "drop-in" play group format, and consistent attendance for all 10 weeks is recommended in order to provide program continuity, facilitate a network of parenting support, establish trust, foster relationships, and build rapport among program participants. Parents may bring peanut-free snacks and drinks for their child(ren). Coffee and Tea will be available. Parents/caregivers of children with or without special needs (e.g. Autism, and related developmental disabilities) are encouraged to participate!

Session Schedule: Thursdays 10:00-11:15

Session Schedule for 2017-2018: September 21st-November 30th; December 7th-February 15th; March 1st-May 10th. Circle which session you would like to attend or circle all three!

Cost: \$180.00 for a 10 week session which includes a program binder, and supplies and materials for crafts

Preschool age siblings are welcome for \$25 additional charge
