### Social Saplings Summer (ages 3-6)

Our same, year-round *Social Saplings* program with extended summer hours and special themes! We play and explore our way through social learning with our talented staff in small groups and using our unique, "Owl Program." Our system facilitates the development of prosocial behavior and independent social skills by making social learning fun! Thematically structured activities, weekly playground trips, nature walks and visits to our community police and fire stations are just some examples of ways we engage our students in learning through play and exploration. Our programs fill quickly so call us today to reserve your spot!
